

JOSH SENDZUL

WEB DESIGNER & FRONTEND DEVELOPER

Freelance web designer and frontend developer creating responsive, polished websites for agencies, startups and local businesses. I combine UI design with modern frontend development, working from Figma through deployment with Next.js, React, TypeScript, WordPress and Framer.

01 EXPERIENCE

- Freelance Web Designer & Developer**
Independent / 2024 - Present

Design and develop responsive websites for local businesses, agencies and digital brands. Own projects from discovery and UI design through frontend build, CMS setup and deployment.

- Frontend Developer**
Hilltop Agency / 2022 - 2023

Built React interfaces and contributed inside an agency team, translating design requirements into reusable, responsive frontend components.

- Frontend Developer Intern**
The Sweet Home / 2021 - 2022

Supported frontend development for real-estate digital experiences using React, with a focus on responsive layouts and clean implementation.

- Internal Auditor - Capital Markets**
MoraBanc / 2019 - 2021

Audited processes in the capital-markets department, developing strong habits around precision, documentation, risk awareness and stakeholder communication.
